

MEI-SSCS Heavy Duty Stainless Steel Cable Strap PRODUCT SHEET

The MEI-SSCS Heavy Duty 316 Stainless Steel Cable Straps can be used on applications requiring insulation, protection from high vibration, improved gripping on non-resilient objects, separation between dissimilar metals and added bundle protection.

This system provides a cost and labor saving alternative to cable cleats and is designed to perform in a wide range of harsh environments, including industries such as Oil and Gas, Power Generation and Shipbuilding.

Reduced Installation Time = Reduced Project Costs

- Up to three times faster installation over cable cleats
- Significant reduction in labor costs
- Up to 75% reduction in material cost
- Simple and effective design - increasing productivity
